

Network Repurposing: Flexible International Engagement with Stable Core

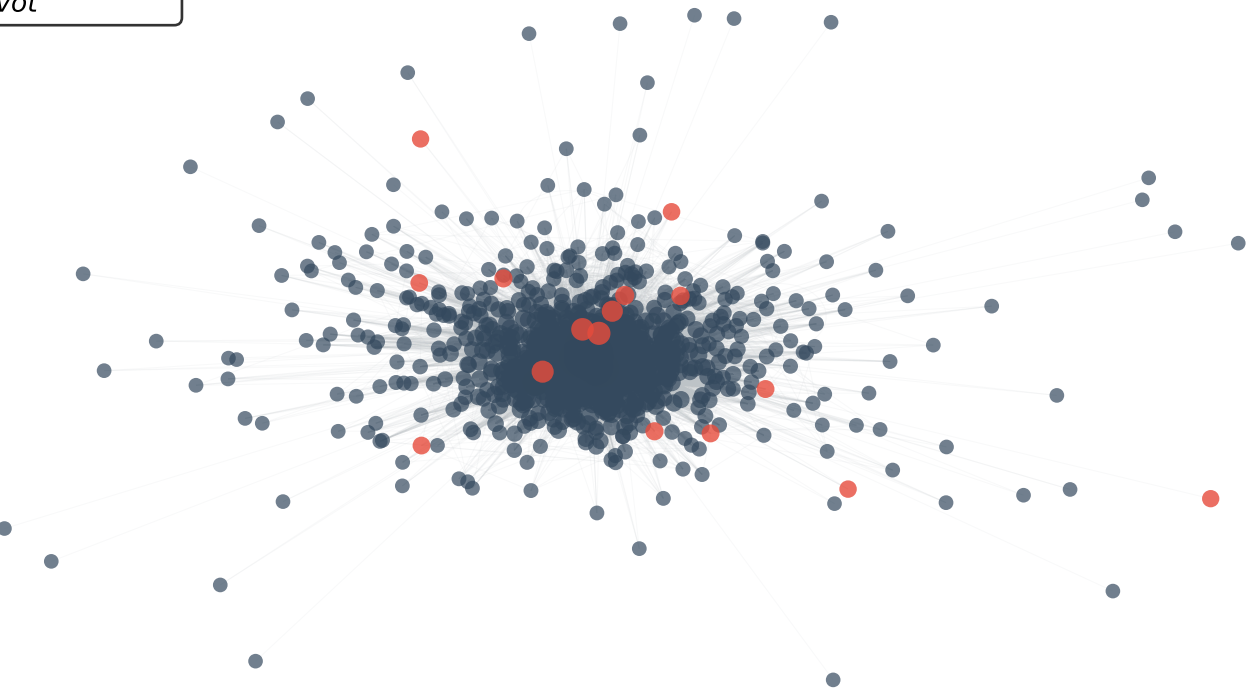

Prick Core
(2012-2014)
676 nodes, 28889 edges

Diverse international
partnerships

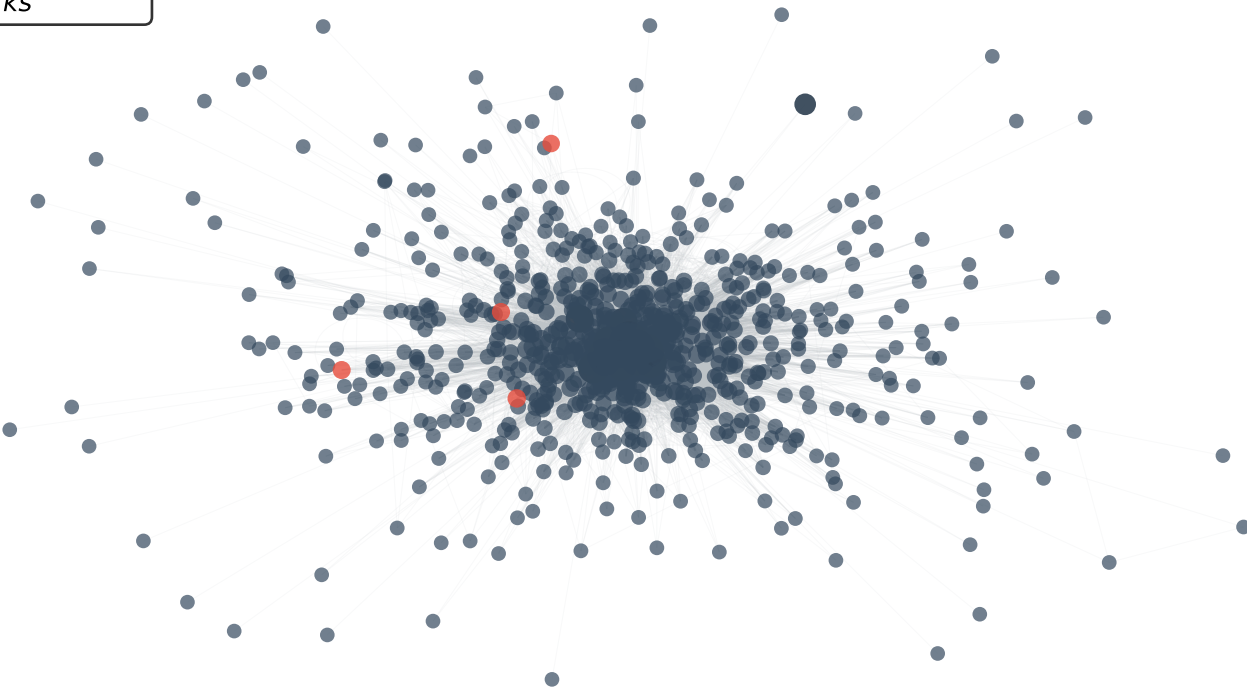

Stable Core
(2014-2020)
935 nodes, 67100 edges

Sanctions response:
East pivot

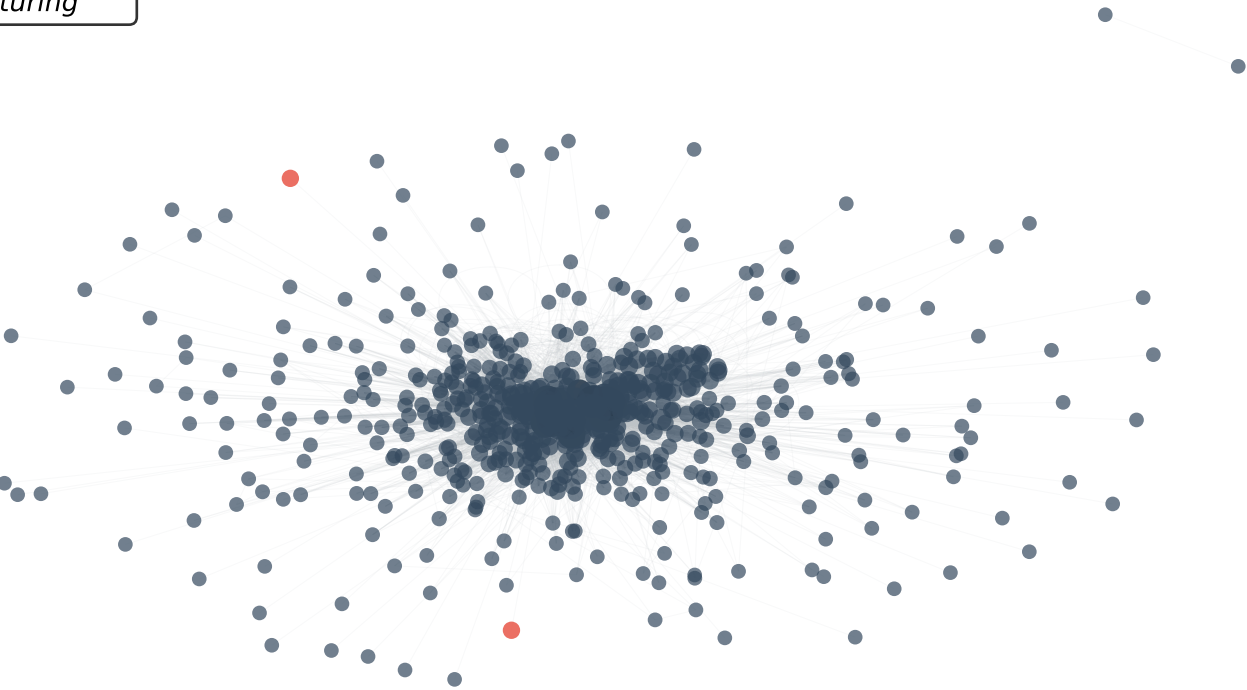

COVID-19
(2020-2022)
725 nodes, 19638 edges

Health diplomacy
networks

War Period
(2022-2024)
578 nodes, 12962 edges

Wartime alliance
restructuring

Node size reflects network centrality. The stable core (dark blue) persists across periods, while international partnerships (red) adapt to changing geopolitical contexts.
